No.2/1/7

10th March, 1944.

Actg. Director of Public Works.

Subject :- Maintenance of Roads and Bridges -
Monthly Progress Charts.

Reference:- Your 26/20/3 of 15.2.44.

One job sheet for LP.2350.- was prepared to repair the potholes and broken up sections throughout the Tulkarm-Qalqilya Road which is in a very bad state. New damages to road always appear and therefore it needs constant repairs.

2. The estimated cost and expenditure are shown in the last row of the chart which are kept separate from the previous expenditure on this road.

3. Progress charts (3 sheets) for the month of February, 1944, are forwarded, herewith.

(SGD) E.J.N. Holder

DISTRICT ENGINEER, NABLUS DISTRICT.

August 15, 1943.

District Engineer,
Nablu District.

Subject : Survey of Bridges.
Reference: Qalgilya - Tulkarm Road.

I forward herewith the Bridge Book No.
BD/22/R for the road under reference.

Please have the sheets on which bridges and culverts are shown checked. The information shown was collected for the purpose of determining the carrying capacities of the bridges. You will therefore find that in many cases such data as width of the bridge, details of foundations, height at the opening, etc. are not shown.

You are therefore requested to add all such particulars in order to provide a full description of the bridges.

You should mark all such conditions and/or alterations on the margins of the sheets, then return the file to me together with any further comments.

Sgd. H.C.H. Jones

PUBLIC WORKS DEPARTMENT.

P.W.D. NABLUS.

27th AUGUST, 1940.

No.

2/2/6

Director of Public Works.

A.D.2

Subject :- Kafr Saba-Tulkarm
 Road.

As requested by Mr. Jones,
 I have prepared a schedule of
 conditions of the above road.

2. The kiloages underlined are
 the points at which the founda-
 tions have been exposed and have
 been tabulated in the column
 "Type of Foundation of Road".

These points are generally
 at 500 metre intervals.

3. Is this sufficient for the
 purposes for which you require
 this schedule. Or, do you wish
 me to open up the road at 250
 metre intervals?

108.500 - 109.000	-Do-	20 cm. Soling.	Good.

11. Saltilva - Tulkara Road. This road has been soled in sections only and Denab is sending me a chart showing where soling has been omitted. *Original in 15/1/3.*

12. Km.97 to 97.5. Probably no soling as the shoulders of the road are sinking and cracking and crazing badly. The surface of the road apart from the shoulders is good and does not merit reconstruction. I propose, therefore, that the shoulders should be scarified, new 3' metal added to bring the shoulders up to correct camber, that the shoulders then be left open to traffic and treated with a seal coat before the winter rains. Do you approve please? This is preferable to laying local patches of soling where none at present exist.

13. Km.104 to 105. Same defects as mentioned in the previous para.

14. The road generally from Km.97 to 105 is showing signs of defective foundations but from Km.105 to Tulkara there is an improvement although a seal coat to water proof a crazed section from Km.107 to 107.2 is to be carried out this summer.

8/9 in 1957

will be carried out by Denab.

4. Km.52 to 53 - Patching repairs necessary.

5. Km.53 to 54 requires repainting.

6. Km.55.7 to 56 - surface grading and resealing will be carried out this year.

7. With Denab inspected security road Nablus - Assun - Qalqiliya. Excessive erosion of drains along the hills is noticeable and Denab will take steps to put in dams to stop scour. The road surface is showing signs of unravelling due chiefly to the use of the road by cattle and cavalry. Denab is taking immediate action to roll the unravelled surface and to lay a protective layer of earth.

8. There has been some slight trouble with maintenance men. Denab found the system whereby they were paid through the Administration to be unsatisfactory inasmuch as a part of a man's pay was kept back and used for Communal Village interests. The labourers objected to this, and not unnaturally were not disposed to work if a portion of

Supply to site stone metal hard machine broken 6 cms. of approved quality for Re-surfacing Km.104.5 - 105.5, Tulkara-Galgiliya Road

Circumstances:- It is proposed to re-surface and asphalt the road section between K.104.5-105.5 on the Tulkara-Galgiliya Road, using 550 M3 of hard metal 6 cm. machine broken.

Cost:- The estimated cost of this work is U.P.132.000 mils.

Time:- Time allowed for the completion of the whole supply is 19 days from date of order to commence.

Average Daily Supply:- Not less than 30 M3 shall be delivered to site each day.

Measurement:- Measurement shall be carried out in lorries and delivered where indicated by P.W.D.

Penalty:- A sum of U.P.2 shall be fined for each day of delay.

General Specifications.

Samples of the stone proposed to be used shall be submitted to the District Engineer by Contractor for his approval before supply operations begin.

The stone shall be of hard quality and sample shall remain with the District Engineer, Nablus District.

No stone inferior to sample in quality, size etc. shall be accepted, and any stones rejected by the District Engineer, as being inferior to the sample shall be removed from site by the Contractor immediately at his own expense.

P.W.D Standard Specification.

All work shall be carried out in strict accordance with the P.W.D. Standard Specification.

Subject :- Supply of Metal for Km. 104.500 - 105.500 of
Tulkarm-Qalqilya Road.

Reference :- Agreement No. NA/10 of 18th November, 1939.

In pursuance of Clause 3 of the above mentioned Agreement
please start the work on the 18th November, 1939.

..... One complete set of the above Agreement is enclosed.

In the meantime your attention is drawn to the necessity of
submitting annually to the Chief Secretary a return of accidents
in accordance with para 2 of the Regulations dated 9.6.27 under
the Workmen's Compensation Ordinance No. 4 of 1927.

5th September, 1939.

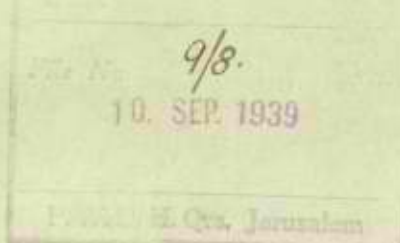

Muhammad Jamil Eff. Mustafa,
Mukhtar of Arab Kafr Saba,
Arab Kafr Saba.

Subject :- Employment of Labour.

Reference :- Your letter of 25th
August, 1939.

No village has any monopoly of Public Works carried out in their village lands. No doubt, the Foreman in charge, Tulkarm, would be prepared to consider a limited amount of labourers from your village should he require them in the vicinity of your village.

I can however find temporary employment for the people you name on the Beisan-Jericho Road if they would call at my office in Nablus, bringing with them a copy of this letter.

Director of Public Works.

We the Mukhtar and notables of the Arab village of Kafr Saba, Tulkarm Sub-District beg to state the following :

With a view ^{to} the orders given by Government to ~~give~~ ^{provide} work to the villages immediately adjoining the roads, and whereas the road between Tulkarm-Qalqiliya - Jaffa traverses a length of 4 Km. of our village lands, it is requested that this petition be considered and work be given to labourers who are unemployed. We would particularly like to ⁿ mention the following:

Muhammad Hamed Dahoud I'rbae

Ahmad Mustafa Musa Walwil

who are in great need of help to enable them to maintain their families. We have great confidence that this matter be considered as we have more right to work on the road passing our lands and especially to the job of maintaining ^{said} the road, which is now being done by persons who live far away from our village.

Sgd. Muhammad
Jamil Mustafa
Mukhtar of the Arab
Village of Kafr Saba.

Engineer in Charge,
Nablus District

Subject : Kilo stones. 200 m 9/34

Reference: 2/27 of 27.9.37. 193 m 9/34

1. Please see my 9/34 of 15.5.1937 para 1. (e) to District Engineer, Jaffa District, with copy to you.
2. This in effect means that the existing kilo stones from Tulkarm to Qalqilya must be scrapped and new stones continuing the kiloage from Jaffa to junction of Tulkarm - Nathania Road near Tulkarm Station substituted.
3. It would be useful to indicate the exact administrative and P.W.D. boundary (where it crosses the road near Kufr Saba) if this has not already been done by District Engineer, and in any event you should ascertain from District Engineer, Jaffa if he has finally checked the stones as set in his district before proceeding with your part of the work.

1. Please see my WPT of 11.1.34 and 11.1.34.
(a) to District Engineer, South District, with
copy to you.
2. This in effect means that the existing
this station from 11.1.34 to 11.1.34 has been
replaced and new station continuing the same
from 11.1.34 to 11.1.34 - 11.1.34.
3. It would be useful to indicate what was
administrative and 11.1.34, January (which is
expressed the road from 11.1.34 to 11.1.34 has not
already been done by District Engineer, and in
any event the road should be maintained from 11.1.34
Engineer, 11.1.34 to 11.1.34. I have finally checked the
station as set in the District Engineer's possession
with your list of the work.

Yours faithfully,
J. H. H. H.

AGREEMENT NO. NA/13.

1. Agreement made this 13th day of May, 1937, between the Engineer in Charge, Nablus District, representing the Palestine Government and *Mr. Rasim Hamal of Tulkarm* hereinafter called the contractor for supplying 450 M3 of Foulieh chippings to conform with the sample submitted to and approved by the Engineer i/c., Nablus District, on the site of Tulkarm-Qalqilya Road, where indicated by the Engineer i/c. or his representative.
2. The rate payable to the contractor is 270 mils per M3 supplied as above.
3. Contractor will be required to supply at least 20 M3 of Foulieh daily from date of order to commence until the whole supply is completed. Failing to supply the full quantities specified on any one day a fine of LP.1 will be extracted from his deposit of LP.23 which he is required to lodge with Engineer i/c. before signing agreement.
4. The Engineer in Charge shall further have the right to cancel this agreement in part or whole at any time he finds the contractor not to be supplying the quantities and qualities required on each day and so allows the work to suffer. In this case the contractor shall forfeit his whole deposit of LP.23 and shall thereafter have no right to ask for the recovery of this amount.
5. All matters in dispute between the parties to this agreement arising out of this agreement shall be submitted to the arbitration of the Director of Public Works sitting alone as Arbitrator, and the decision of the Director of Public Works in his capacity as sole Arbitrator shall be final and binding on both parties to this agreement.
6. Government shall not be responsible for damages to transport or personnel of contractor during the time his agreement remains in force and the latter shall meet any claims arising from this agreement.

 WITNESS	 CONTRACTOR	 ENGINEER IN CHARGE NABLUS DISTRICT
--	---	---

Date:- 13.5.37...

1. Agreement made this 13th day of May, 1937,
between the Engineer in Charge, Rabun District,
representing the Tennessee Government and
Contractor for supplying 480 M of Potash
to certain with the sample submitted to and approved
by the Engineer in Charge, Rabun District, on the 13th
of May, 1937, where indicated by the Engineer
1.0. or his representative.

2. The rate payable to the contractor in Potash
per M supplied as above.

3. Contractor will be required to supply at
least 20 M of Potash daily from date of order to
commence until the whole supply is delivered. Failing
to supply the full quantity specified on any one day
a fine of \$1.00 will be exacted from his deposit of
\$10.00 which he is required to lodge with Engineer in
charge at time of agreement.

4. The Engineer in Charge shall further have the
right to cancel this agreement in case on whole or any
part of the time the contractor has not supplied the
quantity and quality required on each day and on
which the fine is exacted. In this case the contractor
shall forfeit his whole deposit of \$10.00 and shall there-
after have no right to any part of the recovery of this amount.

5. All claims in dispute between the parties to
this agreement arising out of this agreement shall be
submitted to the arbitration of the Engineer in Charge who
shall have the right to appoint one or more arbitrators
to hear and decide the same in his capacity as an arbitrator.
The arbitrator shall have the right to call on the parties
to the agreement and to examine the books and records of the parties.

6. The Engineer in Charge shall not be responsible for damages
to the contractor or personal injury during the time this
agreement remains in force. The Engineer shall not be
liable for any loss or damage to the contractor's property
arising out of this agreement.

September 1st, 1936

Director of Public Works,
Jerusalem,

Subject : Qalqilya Road Work in Km.103.

Reference: My Diary for August entry for 26.8.36.

To-day two bombs were found placed in the unfinished work left over from yesterday and, on our men warning the Army, were removed but not without firing on both sides.

Previously on August 25th the roller and transport were fired at, near the workspot.

The men working are all Maintenance men and rather than expose them further (a small guard will not help at all) I have ordered work to stop.

Two other cases have been reported of bombs on the road - at Khen Lubban and below Silah - today. Both these have slightly damaged the road and at Khan Lubban have caused serious injury to our troops.

I am having these places asphalted over at once and issuing a circular to all Foreman that Maintenance men must take every step to discover such bombs and must at once inform the convoys etc.

It is obvious, however, that too much cannot be expected from these isolated units, but we are co-operating with the troops to the best of our ability.

Chief Secretary's Office,

Jerusalem,

Palestine.

October, 1935.

Director of Public Works.

With reference to your letter No. 9/8 dated the 6th September, I am directed to inform you that the correct procedure to be followed in the matter of the encroachment of Ahmad Mohd. Nuara's house upon the Tulkarm - Qalqilya road is that prescribed by section 4(3) of the Roads (Width and Alignment) Ordinance, 1926, which empowers the High Commissioner, in the event of the owner failing to remove the offending work, to cause it to be removed and to recover the cost of removal from the person who erected it or caused it to be erected.

2. You are authorised, therefore, to proceed accordingly, but for obvious reasons no action should be taken except in consultation with, and with the full knowledge of, the responsible Administrative Officer for the area concerned.

In the Magistrate's Court Tulkarm (Criminal Section)
Before the Magistrate

Appellant } Attorney General
Plaintiff }

Defendant } Ahmad Mohammad Kuara of Qalqilya
Respondent }

Judgment

In trying Ahmad Mohammad Kuara of Qalqilya with a charge against him that on 16/1/35 he obtained a licence from D.O. Tulkarm permitting him to construct an upper room on his original building provided that he should leave a margin of ten meters from the centre of the main road. Whereas he constructed the said room and did not leave the specified distance and he appeared in the first sitting for hearing the case when he denied but he did not appear in the second sitting of the court and whereas it was proved by witnesses who were heard in default that he actually constructed the room encroaching on the main road at Qalqilya leading to Jaffa and did not leave more than 8½ meters from the centre of the road it is therefore in compliance with Article 3 from the Width and Alignment of Roads Ordinance 1926 and in accordance with the Order published in the Pal. Gazette N° 165 connected therewith I hereby give the judgment that a fine of L.P. 5 is to be imposed plus 400 Mils court fees on him failing payment of which he is to be imprisoned for ~~one~~ period of one day for each 100 Mils or part thereof in addition to making him to remove the two walls constructed on both sides of the North east and the South east directions of the upper room which was constructed as demarcated on the plan which was produced by the E. & P.W.D. & filed in the court since the construction was not effected to be away from the main road the specified distance as shown in the licence issued to him.

The construction should be removed within one month from the date of the final judgment given & if not removed in period mentioned the matter will be referred to His Excellency the High Commissioner who will use his power in this case.

Judgment given in default & read to the public.

It is decided to reject the appeal

2nd January, 1935.

2

Director of Public Works,
Jerusalem.

Subject:- Flood Damages.
Reference:- My 2/3 of 24-12-34.

Further extraordinary rains fell between Dec.27th and Dec. 30th in the Tulkarm area.

The Kalkilieh Road was slightly damaged owing chiefly to lack of adequate drainage and to the initial settlement of embankments. Repairs, apart from application of second coat asphalt, would not exceed LP.150.-

The existing 1.00 M. culvert in Kalkilieh Village is inadequate and should be replaced by a 3.00 M. culvert. I am communicating with the A.D.C. re this.

Passenger busses and lorries were beginning to come in from Jaffa to Kalkilieh yesterday, after a lapse of three days, via Ra'nana.

The Tulkarm-Nathanias road.

This road too was slightly damaged being new and unconsolidated. At three points earthwork and soling were damaged by rushing water, but the road was never rendered impassable thereby and I examined same in my small car yesterday.

The road has not yet been completed a gap of 60 M. remaining at site of an old bridge in K.4.500. This bridge was built in 1928 and wrongly aligned and work would have been finished by now had it not been for recent rains interfering.

This gap effectually prevents passages beyond K.4.500 but up till now traffic has taken off at Burin and reached Nathanias by way of sandy tracks. Traffic should be able to pass, in any case, by to-morrow if rains hold off. I am having the 60 M. gap soled at once and I am leaving the bridge so that after two days the road will be open throughout.

The total damage amounts to LP.100, but soling will require careful sectioning before metalling next year, as longitudinal ruts, due to traffic, have appeared in places.

Of the 13 new bridges or culverts, ranging from 1.00 M. to 6.00 M. opening not one is damaged beyond the falling in of dry stone retaining walls in places.

It seemed advisable, in this connection, to dent the false statements of the Palestine Post appearing in yesterday's issue and I accordingly wired you as follows :-

"Nathanias road slightly damaged only.
LP.100 would cover. All bridges intact.
Busses passing Tulkarm-Jaffa. Newspaper reports false - Diseng".

I should be glad of an F.A. for LP.250.-

PUBLIC WORKS DEPARTMENT

OFFICE OF THE
ENGINEER IN CHARGE
NABLUS DISTRICT
NABLUS.

24th December, 1934.

Director of Public Works,
Jerusalem.

① *Invoice to E/c Nablus for 1000. It is for damage on main road to*
Subject :- Tulkarm-Kalkilya Rd.
Reference :- Roads Programme
1935/36 forwarded under
my 3/15 of 15.11.34.

② *PA 745 of 3.1.35*
The Kalkilya Road shows signs of breaking up in certain sections owing to settlement after recent heavy rains and to the nature of the soil beyond K.102 and it is essential to apply the second coat of asphalt without further delay, over, at least, four kilometres. As it is, water is, in many places, getting into the foundations through small surface cracks.

A sum of LP.500 would enable me to safeguard this road until the block estimate is formally sanctioned and I am afraid that if not done at once the road will break up.

The matter is a serious one.
